

## DETERMINING RING SIZE

### METHOD A – Measuring your Finger

- Find a piece of non-stretchy string about 6" long, or a strip of paper about 6" long and 1/4" wide.
- Wrap it snugly around the base of your finger.
- Using a pen, mark the point on the string or paper where it overlaps, forming a complete circle.
- Measure the string and compare with the chart to the right to determine your ring size.
- **Note: If you are between sizes, order the larger size.**

### METHOD B – Measuring your Finger with Paper Sizer

- Carefully cut out the ring sizer below. Cut the small slit as well.
- With numbers facing out place the sizer comfortably around the finger.
- Slide the pointer end of the sizer through the slit

### METHOD C – Measuring using an Existing Ring

- Find a ring that fits your finger snugly.
- Place the ring on a circle within the chart below.
- Match the inside size of the ring with the circle nearest in size.
